## Letter to Dear Ones at Home (#2)

Anna Hunnicutt Foster Marshall

the mail again but the

to send books as very patient

Mr. & Mrs. M. went to P.H.B.

for their supplies and

weeks ago and there

was no mail at all.

We could not understand

it but suppose there

was a mistake about

getting it at Bangalore.

The Capt. of the Barrack

said there was some

you in at Bangalore.

The plan to establish

at P.H.B. is at P.H.B. seems  
to have failed, at least  
the subject is dropped

Wash Village, October

May 15 1955

Dear Gene at Home -

The Gray Heron

came in last week bringing

Mr. Reptable from the

Douglas Mission and

he is taking Mrs. to the

back with him to

run his sick wife

~~home~~ and she

will probably not be

back at Wash before

going below. It is quite

a sudden change and  
a surprise to us although  
we were expecting Mrs. to

in very good condition  
at Manglar and the  
good of him, he could  
work in Juneau,  
I had nearly forgotten to  
mention a most  
important thing that  
is that we have begun  
living by ourselves.  
When the new supplies  
came to the house  
was fast enough along  
so we moved in and  
we are quite comfortable  
although we don't sleep  
there on that one here  
a good deal as it is

But we know the to and  
will give us strength  
to take up the work we  
leave on supply all  
things needed in this  
own good way. Several  
of the richens have been  
in again and we are  
forming school which  
will continue as long  
as they remain perhaps  
two or three more making  
one month altogether.  
We have not heard  
anything from home  
to let know the first  
day of nearly July and

has not been done yet.

We have the whole

upstairs as it is not

partitioned yet. I opened

some of the butter that

had from Mother's

Anna" this morning and

it is delicious although

a nail had gone through

the bottom of the can

and some of the time

had seeped out. We

have been eating some

straw jelly made by

to the good and some

topping by Mrs. Chincham

and some raisins by

vegetable and fruit stalks

and if there should be

any thing sent to us

please put some of mine

in. We get along remarkably

well when alone and

knowing of Mrs. M's when

we have company,

I will send a baby

favor pin and a

little spoon which

Primmie whittled from

an eagle claw.

With lots of love and

prayers, yours, Anna

My soul is often melted

in prayers for you all.

Whether the way kept  
these things on give  
them away if the  
wishes

some. Solway speaks by  
P. C. H. and some thanks  
by Mrs. G. Cunningham  
and we have so many  
blessings I can't mention  
them all but please let  
all these people we have  
enjoyed their so much  
and our souls are filled  
as we think of all the  
kind friends have done  
and we know that God  
will bless them, One  
home invited Mrs. H. to  
and Mr. DePledge to take  
dinner with us today  
we are somewhat
